The Climate change and environment education centre (Living Lab) in Dropie benefits from a Grant of € 1 200 000. Supported by the peoples of Iceland, Liechtenstein and Norway through the EEA Grants. Co-financed by the State Budget of the Slovak Republic.

The aim of the project is to create a complex educational centre that shall ensure the acquisition of relevant knowledge and skills needed to promote and implement climate mitigation and adaptation measures and community outreach in action. One of the most important missions of LivingLab shall be filling the gap of providing the relevant, digestible information, knowledge and skills to negotiate plan and implement necessary mitigation and adaptation measures for relevant stakeholders on municipal level.
